What our clients have to say about us

When we worked with Robert Walters, our strong areas were commercial and IT infrastructure hiring. During my time working with Kanita and her team, she has always been cheerful and willing to assist with any task. Additionally, Kanita is motivated and interested in learning about LSEG. She brings positive energy and demonstrates an understanding of the technical stack. I am already considering Robert Walters to explore more opportunities in software development hiring, as it is a key area for LSEG.

Khun Rungnapa has been working with me personally and professionally. She is very senior, mature and professional. She is a true business partner who understands my needs and tries her best to meet them in every single possible way. She is always smiling and never gets emotional. Working with her has been a great experience and I would recommend Khun Rungnapa to be your recruitment partner as well.

Thank you Robert Walters for all your support to us, starting from looking for potential candidates. Since our company hasn't conducted recruitment activities for a long time, it was not an easy task, as there were a lot of requirements with limited conditions. Robert Walters provided good consultation, and within a few months, we successfully found a candidate to replace the role on time. I truly appreciate the help. Thank you.
