

Ensure compliance with the IIA Internal Audit Standards using Diligent

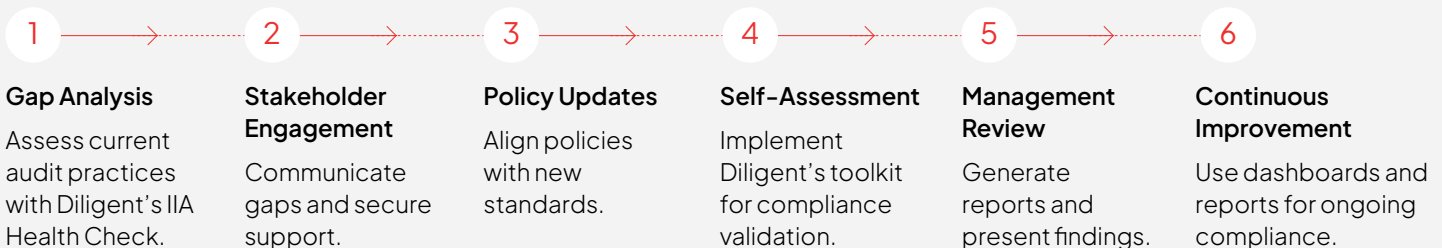

The IIA's Global Internal Audit Standards take effect on January 9, 2025, introducing 5 domains, 15 principles, and 52 standards. Organizations must transition to align with modern governance and risk management. Diligent's Self-Assessment Toolkit helps Chief Audit Executives evaluate compliance and performance efficiently.

Key features

- 1. Compliance Self-Assessment**
 - Structured questionnaire based on the 2024 IIA Standards.
 - Covers key areas like cybersecurity, IT governance, and risk management.
- 2. Automation & Centralization**
 - Seamlessly integrates with Diligent Audit Manager
 - Centralized repository for compliance evidence and automated task tracking.
- 3. Conformance & Performance Evaluation**
 - Assess compliance and identify gaps using performance indicators.
- 4. Gap Identification & Action Planning**
 - Detect non-conformance, create action plans, and track progress.
- 5. Dashboard & Reporting**
 - Real-time dashboards and automated reports for stakeholders.
- 6. Governance & Oversight**
 - Tools for accountability and senior management oversight.

Roadmap to compliance
