

Boost productivity easily with Grab For Business

A free, efficient cost
management solution.

Save time, effort and money by eliminating inefficient expense approval processes. Grab For business makes it effortless to manage and track your employees' Grab expenses. Set expense policies, assign permissions, generate detailed expense reports and more, in a simple online portal.

It's easy to get started

Link your employees' Grab app to your company's Grab For Business account

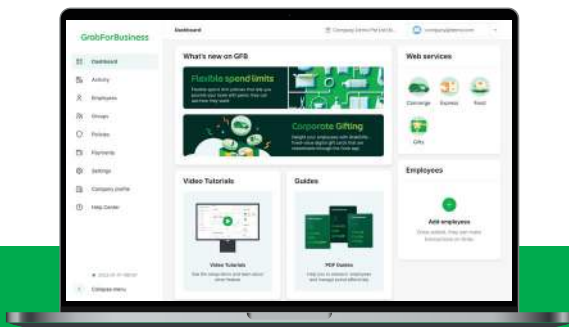

Let your employees charge work-related Grab rides and GrabFood meals to the company's Grab For Business account

Set your company expense policy for employees in the online portal (when, where and how much)

Great reasons to use Grab For Business

- ✓ **Guaranteed expense compliance**
Set your company expense policy once, and all employee expenses will automatically comply within the rules you set.
- ✓ **Transparency across expenses**
Access detailed expense reports by teams or individuals in real-time from a convenient online portal.
- ✓ **Improved employee experience**
Employees can save time and boost productivity while using the Grab services they know and love.
- ✓ **Flexible and scalable**
Whether it's a team of 10 or a company of 1,000 employees, you can adjust your expense policies, and add or remove staff easily.
- ✓ **Available across Southeast Asia**
Ideal for companies with regional offices or employees who travel around Southeast Asia.
